Subject: Fwd: Nutley bridge opening video

Barge movement thru the Avondale Bridge. Material from the Lyndhurst site.
Please review the video taken by a member of the Passaic River Boat Club from the parking lot of the Nutley Boat Ramp.
Maybe on the way back they could take out the 200 CYD's of material at the bottom of the ramp.
Hope springs eternal!

Harvey

Video of last night's bridge opening in Nutley August 8, 2013 . Right on schedule 8PM. It was a good size barge.
They had the bridge closed for about 10 minutes.
